| BUSINESS CASE: | | | | | | |
| Description | The IT Department is responsible for the operation of the Township's technology requirements. This project allows for the continued update and replacement of older systems with newer, more efficient equipment. | | | | | |
| Benefits | The Township is continuing to upgrade IT services to stay in line with current techn will also see improvements in employee productivity though increased equipment minimization of equipment outages. | | | | | |
| Costs | Initial cost of replacement and ongoing maintenance of equipment. | | | | | |
| Risk | The potential that equipment malfunctions and is not available for staff to perform by staff waiting for equipment to be repaired. | heir duties | s. Time lost | | | |
| Savings | The new equipment will allow us to see savings due to increases in employee production | luctivity. | | | | |
| Alternatives Considered | 1. Do not proceed with the project. (Not Recommended) | | | | | |
| Value Measurement | Increase in efficiencies. | | | | | |

| Fire | Fire Station #3 Reconstruction | 2017 |
|-------------------|--|----------------------------|
| Expenditures | Fire Station #3 Reconstruction \$ Total Expenses \$ | 1,800,000 1,800,000 |
| Revenue Sources | Long-term Borrowing \$ Total Revenue \$ | (1,800,000) (1,800,000) |
| Project Net Total | \$ | - |

PROJECT NAME: Fire Station #3 Reconstruction

PROJECT COST: Reconstruction of Fire Station #3 (Burnaby) \$ 1,800,000

Total \$ 1,800,000

BUSINESS CASE:

Description Fire station #3 was constructed in 1968 and based on both the 2013 Fire Master Plan and 2016 Fire and

Emergency Services Operational Review, the fire station is in need of replacement.

Benefits Will facilitate the provision of mandated fire protection services to residents of Wainfleet in conformance

with applicable provincial legislation, fire service standards and best practices.

Costs to construct a new building using a "design-build" methodology.

Risk Space constraints in the existing fire station will not accommodate new vehicles that meets current

requirements.

Savings A station constructed to current building standards would be more energy efficient, thereby resulting in

savings in operating costs.

Alternatives Considered 1. Not proceed with the reconstruction of Fire Station #3. (Not Recommended)

Value Measurement Provision of mandated fire protection services to the residents of Wainfleet in accordance with provincial

regulations and fire service standards in a cost effective manner.

| Fire | Tanker Truck Replacement | 2017 |
|-------------------|---|------------------------|
| Expenditures | Tanker Truck Replacement \$ Total Expenses \$ | 350,000 350,000 |
| Revenue Sources | Transfer from Reserves - Fire \$ Total Revenue \$ | (350,000) (350,000) |
| Project Net Total | \$ | - |

PROJECT NAME: Tanker Truck Replacement

PROJECT COST: Purchase of Tanker Truck \$ 350,000

Total \$ 350,000

BUSINESS CASE:

Description The tanker truck is a 1989 model and using the projected 20 year front line service life was due to be

replaced in 2009. It was recommended in both the 2013 Fire Master Plan and the 2016 Fire and

Emergency Services Operational Review that this tanker be replaced.

Benefits The tanker truck is an essential piece of equipment that is used for fire fighting and rescue operations.

Costs Initial cost to purchase the truck. Normal on-going costs to operate and maintain the vehicle. Because

the vast majority of components for a fire truck are manufactured in the USA (e.g. cab, chassis, engine, pump, etc.), unfavourable exchange rates may have a substantial impact on apparatus pricing in

Canada.

Risk Each municipality is required by statute to provide adequate fire protection services commensurate with

local needs and risks. Reliable trucks are necessary to provide fire and rescue services in order to

ensure a high level of public safety.

Savings The replacement of the existing tanker truck will reduce repair costs and ensure reliable operations.

Alternatives Considered 1. Defer the purchase which could result in decreased reliability of Wainfleet's fire

apparatus and increased maintenance costs. (Not Recommended)

Value Measurement Reduction in repair costs. Ability to deploy adequate resources to fire and emergency scenes in a timely

manner to comply with legislated requirements. The replacement of this tanker truck will enable the fire service to safely and effectively provide fire protection service to the public presently and well into the

future.

| Fire | Pumper Replacement | | 2017 |
|-------------------|---|-------------------|------------------------|
| Expenditures | Pumper Replacement | \$ | 450,000 |
| | | Total Expenses \$ | 450,000 |
| Revenue Sources | | | (252.222) |
| | Long-term Borrowing Transfer from Reserves - Fire | \$ \$ | (250,000) (200,000) |
| | | Total Revenue \$ | (450,000) |
| Project Net Total | | \$ | - |
| | | | |

PROJECT NAME: Pumper Replacement

PROJECT COST: Purchase of Pumper Truck \$ 450,000

Total \$ 450,000

BUSINESS CASE:

Description The pumper is a 1997 model and has served 20 years in front line service. It was recommended in the

2016 Fire and Emergency Services Operational Review that this pumper be replaced.

Benefits The pumper truck is an essential piece of equipment that is used for fire fighting and rescue operations.

Costs Initial cost to purchase the truck. Normal on-going costs to operate and maintain the vehicle. Because

the vast majority of components for a fire truck are manufactured in the USA (e.g. cab, chassis, engine, pump, etc.), unfavourable exchange rates may have a substantial impact on apparatus pricing in

Canada.

Risk Each municipality is required by statute to provide adequate fire protection services commensurate with

local needs and risks. Reliable pumper trucks are necessary to provide fire and rescue services in order

to ensure a high level of public safety.

Savings The replacement of the existing pumper will reduce repair costs and ensure reliable operations.

Alternatives Considered 1. Defer the purchase which could result in decreased reliability of Wainfleet's fire

apparatus and increased maintenance costs. (Not Recommended)

Value Measurement Reduction in repair costs. Ability to deploy adequate resources to fire and emergency scenes in a timely

manner to comply with legislated requirements. The replacement of this pumper truck will enable the fire service to safely and effectively provide fire protection service to the public presently and well into the

future.

| Fire | Fire Equipment Update | 2017 |
|-------------------|---|----------------------|
| Expenditures | Fire Equipment Update \$ Total Expenses \$ | 50,000 50,000 |
| Revenue Sources | Capital Tax Levy \$ Total Revenue \$ | (50,000) (50,000) |
| Project Net Total | \$ | - |

PROJECT NAME: Fire Equipment Update

PROJECT COST: Purchase of bunker gear, SCBA apparatus and radios \$

\$ 50,000 Total \$ 50,000

BUSINESS CASE:

Description Proper protective equipment for all firefighters is mandated by provincial health and safety regulations.

Safety equipment deteriorates with age and usage. Because the expected service life of this equipment is limited, a number of sets should be replaced annually. Protective equipment must be custom fit to

each individual to ensure proper protection.

Benefits Proper safety equipment protects firefighters and allows them to enter hazardous environments in the

performance of their duties. Firefighting equipment meeting a prescribed standard is required by health & safety legislation for entry into dangerous environments as is routinely encountered by firefighters in the

performance of their regular duties.

Costs Initial cost to purchase the equipment. Normal on-going costs to maintain, inspect and test the

equipment on a regular basis as required by regulations.

Risk Failure to provide and maintain proper protective equipment to a prescribed standard contravenes the

Occupational Health and Safety Act, places firefighters at undue risk, and compromises the fire

department's ability to ensure a high level of public safety.

Savings The scheduled replacement of equipment on an on-going basis reduces repair costs.

Alternatives Considered 1. Do not proceed with the purchase of protective equipment. (Not Recommended)

Value Measurement Provides for health and safety of personnel and avoidance of lost-time injury claims. Reduction in

equipment repair costs.

| Roads & Bridges | Road Resurfacing Program | 2017 |
|-------------------|---|---|
| Expenditures | Road Resurfacing Program \$ Total Expenses \$ | 413,100 413,100 |
| Revenue Sources | Federal Gas Tax Funding \$ OCIF Formula-based Allocation \$ Capital Tax Levy \$ Total Revenue \$ | (193,240) (25,000) (194,860) (413,100) |
| Project Net Total | \$ | - |

| DEPARTMENT: | Roads & Bridges | | |
|----------------|---|-------|--------------------------|
| PROJECT NAME: | Road Resurfacing Program | | |
| PROJECT COST: | Road resurfacing | Total | \$ 413,100 413,100 |
| BUSINESS CASE: | | | |
| Description | 2017 Road Resurfacing Program | | |
| | Townline Road (Feeder Road to Poth Road) - 1.4 km | | \$ 66,800 |
| | Bell Road | | \$ 30,000 |
| | Wilford Road | | \$ 32,000 |
| | Philips Road | | \$ 46,500 |
| | Kilts Road (preliminary work) | | \$ 70,000 |
| | Abbey Road (Highway #3 to Side Road 22) - 1.6 km | - | \$ 167,800 |
| | Total Road Resurfacing Program | - | \$ 413,100 |

- Benefits
- 1. Townline Road has been upgraded to surface treatment previously by Haldimand County except for the portion of road from Feeder Road to Poth Road. This will complete the entire stretch of road.
- 2. Bell Road, Wilford Road and Phillips Road will receive a Single Surface Treatment (SST) application following a double surface treatment. This offers preventative maintenance from the effects of sun and water, both of which may deteriorate the surface. The single surface treatment will create a new wearing course as well as a waterproof covering to assist in deterring water from entering the base material and preventing freeze-thaw damage. It also provides a good gripping texture which will reduce a slippery surface and increase stopping potential.
- 3. Kilts road will require extensive work to meet the municipal standard of 6 mtrs roadway. It requires the removal of trees, the ditches to be moved back, widen the road for 1/4 of the distance and then restoration. The road allowance would also require some surveying to ensure the road allowance width and location. A couple inches of stone will need to be added to final grade prior to surface treatment.
- 4. Abbey Road had previously been surface treated and is now in a state of disrepair. The road had not been prepared to standards at the time of construction and due to the volume of delivery trucks to the established farm businesses in the area, it is breaking up. The road will be built to proper standards and will provide for a good travelled road for many years to come.

Capital Project #6

| Costs | Cost of preparation and the application of the treatment. | | |
|-------------------------|--|--------------|---------|
| Risk | The potential of not sealing the lower 2 courses and allowing water to enter the base material and potentially causing damage during a freeze thaw cycle. | | |
| Savings | Ongoing maintenance for patch repair and pothole repairs due to infiltration | on of water. | |
| Alternatives Considered | Continue with regular maintenance program until future resurfacing program. (Not Recommended) Perform additional road reconstruction on the following roads. (Not Recommended) | | |
| | Kilts Road (remainder of project work) | \$ | 144,500 |
| | Tunnacliffe Road | \$ | 70,000 |
| | Garringer Road (Malowany Road to Rattler Road) | \$ | 147,100 |
| | Abbey Road (Side Road 22 to Daily Ditch) | \$ | 195,000 |
| Value Measurement | Decrease in cost of ongoing repairs. | | |

| Roads & Bridges | Bridge Work | 2017 |
|-------------------|---|---|
| Expenditures | Bridge Work Total Expenses | 439,100 439,100 |
| Revenue Sources | OCIF Top-up Funding Allocation Transfer from Reserves - Capital WIP Total Revenue | \$ (354,690) \$ (84,410) \$ (439,100) |
| Project Net Total | | - |

DEPARTMENT: Roads & Bridges

PROJECT NAME: Bridge Work

PROJECT COST: Boyle Road Bridge #BWLW16 Construction (Township's Share)

Gents Road Bridge Design

\$ 394,100 \$ 45,000 Total \$ 439,100

BUSINESS CASE:

Description There are several bridges in our inventory that have been due for replacement for several years.

1. Boyle Road Bridge #BWLW16 is shared with the Township of West Lincoln and is presently the subject of an application for the OCIF top-up grant. The estimated total cost is \$ 788,200 of which \$394,100 will be the Township's portion. We have applied for a grant for 90% funding which will reduce

our cost to \$39,410.

2. Gents Road Bridge is Township owned and a topographic survey and geological testing has been

performed in 2016. The design for the new bridge will be undertaken in 2017 for \$45,000 and

construction with take place in 2018 for an estimated cost of \$650,000.

Benefits Preparing the design work this year will allow the Township to proceed in 2018 with the reconstruction of

the Gents Road Bridge. It will also place the Township in a position to apply for government funding

when it is announced.

Costs The initial cost for design and construction as well as on going maintenance.

Risk The bridge reports have indicated that the township is at risk if the bridges are not replaced.

Savings The cost of construction will increase yearly due to increase costs of materials.

Alternatives Considered 1. Do not proceed with any of the required work. (Not Recommended)

Value Measurement Decrease in cost of repairs.

| Roads & Bridges | Harbourview Catch Basin and Drainage Tile | | 2017 |
|-------------------|---|----------------------|----------------------|
| Expenditures | Harbourview Catch Basin and Drainage Tile | \$ Total Expenses \$ | 12,000 12,000 |
| Revenue Sources | Capital Tax Levy | \$ Total Revenue \$ | (12,000) (12,000) |
| Project Net Total | | \$ | - |

DEPARTMENT: Roads & Bridges

PROJECT NAME: Harbourview Catch Basin and Drainage Tile

PROJECT COST: Installation of catch basins \$ 12,000

Total \$ 12,000

BUSINESS CASE:

Description A previous project involved a road restoration and resurfacing on Harbourview. As a result of the project,

the water run off from the road surface is now causing flooding in the private yards and septic beds. The project will include 5 catch basins and 117 meters of pipe to collect the surface water and drain to an

existing catch basin system.

Benefits This will provide roadside drainage and alleviate the flooding on private lands from road drainage run off.

Costs The initial cost of installation and maintenance.

Risk The road drainage is presently causing septic issues on private property.

Savings Avoidance of payments to residents to offset the cost of damage to private property as a result of

flooding.

Alternatives Considered 1. Do not install catch basins and drainage system. (Not Recommended)

Value Measurement Decrease in incidences of flooding.

| Roads & Bridges | Sandel Road Walkway | 2017 |
|-------------------|---|--------------------|
| Expenditures | Sandel Road Walkway \$ Total Expenses \$ | 3,000 3,000 |
| Revenue Sources | Capital Tax Levy \$ Total Revenue \$ | (3,000) (3,000) |
| Project Net Total | \$ | - |

DEPARTMENT: Roads & Bridges

PROJECT NAME: Sandel Road Walkway

PROJECT COST: Construction of walkway \$ 3,000

Total \$ 3,000

BUSINESS CASE:

Description This project has been created as a result of the recent ownership change of Sandel Road. The

Augustine Family recently transferred the ownership of Sandel Road to the Township. At present Sandel Road is open from Lakeshore Road to Houck Road and is being maintained by the Roads Department. The unopened section from Houck Road to Augustine Road is presently being encroached upon and it is the desire of staff to install a formal walkway to allow the local residents access to the beach. A stone

pathway is the desired material to reduce the maintenance costs.

Benefits The Township is continuing to upgrade services and facilities as required and this has become a great

opportunity for improvement and access to the public beach by the local residents.

Costs The initial cost for installation and minor maintenance. There may be some additional costs due to

encroachments.

Risk Constructing a walkway for pedestrian traffic poses some risk due to maintenance standards and the

need for ongoing inspections. There also may be legal issues that arise due to encroachments.

Savings None.

Alternatives Considered 1. Leave the property as is. (Not Recommended)

2. Install a hard surfaced walkway and landscaping. (Not Recommended)

Value Measurement Increased pedestrian traffic to beach.

| Vehicles & Equipment | Tandem Truck Replacement | 2017 |
|----------------------|---|-------------------------------------|
| Expenditures | Tandem Truck Replacement \$ Total Expenses \$ | 260,000 260,000 |
| Revenue Sources | Transfer from Reserves - Public Works Equipment \$ Capital Tax Levy \$ Total Revenue \$ | (160,000) (100,000) (260,000) |
| Project Net Total | \$ | - |

DEPARTMENT: Vehicles & Equipment

PROJECT NAME: Tandem Truck Replacement

PROJECT COST: Purchase of Tandem Truck \$ 260,000

Total \$ 260,000

BUSINESS CASE:

Description The current truck is a 2006 International with 244,873 kms. It is presently at its replacement life cycle and

is in need of some repairs. The repairs are estimated at \$20,000 to \$40,000 if the vehicle was to remain in the fleet. The repairs consist of: transmission splitter seized, A/C not working, wing cylinder needs rebuilding, exhaust work and an engine oil leak which would require top end work. These trucks are the back bone of the Roads Department and are used daily. A reliable truck is paramount to the completion

of tasks.

Benefits The tandem is an essential piece of equipment that is used for year round operations. The primary goal

in summer is to haul stone and fill to and from jobsites. During the winter, it is utilized to plow snow and

sand the roads to provide a safe road surface.

Costs Initial cost to purchase the truck, ongoing maintenance, and volume of repairs. The majority of these

truck chassis are built in the USA therefore exchange rates play a key role in pricing.

Reliable trucks are paramount and down time of older vehicles place the Township at risk of not meeting

minimum maintenance standards. Not meeting the standards exposes the municipality to potential

liability should accidents occur.

Savings Reduction in repair costs to maintain the aging piece of equipment, and down time due to break downs.

Alternatives Considered 1. Deferring the purchase will result in expenditures for repairs to bring it back on line as a spare front

line vehicle; increased maintenance costs. Staff are trying to spread out the fleet replacement program to assist in annual budgets and could potentially cause undo stress in future budgets. (Not recommended) 2. Removing the vehicle from the fleet will result in the inability to respond during any downtime of the

front line vehicles and potentially not meeting the minimum maintenance standards. (Not recommended)

Value Measurement

Reduction in repair costs. Ability to deploy adequate resources in order to meet the minimum maintenance standards. The replacement will meet the demands of the department for many years.

| Facilities | Arena Addition and Renovation of Seniors Centre | | 2017 |

PROJECT NAME: Arena Addition and Renovation of Seniors Centre

PROJECT COST: Addition of change rooms, referee room and expansion of Senior Centre

\$ 550,000 Total \$ 550,000

BUSINESS CASE:

Benefits

Description The addition of the arena will provide additional fully accessible change rooms, a new referee room and

a new storage room for the Minor Hockey Association. At present, the two change rooms have been retrofitted for minor accessibility but will not allow for any alternate rooms for future programming that may involve full accessibility. The present change room for the referees is small and poses some risk due to public access if an altercation were to occur. The Minor Hockey storage room is presently beside the Seniors Drop-in Centre and prevents further expansion. The Seniors Drop-in Centre is limited in capacity at present and the demand due to our demographics will only increase in the near future.

The project will provide additional change rooms to create a smoother transition between user groups and will allow for future programming involving accessibility to the facility. The addition will also provide a larger space for the seniors to increase their membership and provide better continuity during their events. The addition will provide some risk management by separating the referees from the general

public.

Costs The initial cost of construction and on-going maintenance costs.

Risk The present change rooms pose challenges in programming due to availability and the switching of

users between games. Additionally they are not all accessible and will not allow for any future programming requiring accessibility. The Senior's Drop-in Centre is presently being utilized two days a week and is almost at their maximum capacity for functional ability. The addition will allow for more

programming and additional membership.

Savings More efficient use of arena space may provide for increased facility usage.

Alternatives Considered 1. Do not add additional change rooms or expand the seniors center. (Not Recommended)

Value Measurement Increase in arena programming. Increase in memberships and programming at the Seniors Drop-in

Centre.

| Facilities | Event Bleachers | 2017 |
|-------------------|------------------|-----------|
| Expenditures | Event Bleachers | \$ - |
| | Total Expenses _ | \$ - |
| Revenue Sources | Capital Tax Levy | \$ - - |
| | Total Revenue | \$ - |
| Project Net Total | - | 5 - |

PROJECT NAME: Event Bleachers

PROJECT COST: Purchase and installation of bleachers

Total \$ 53,765

BUSINESS CASE:

Description Staff have been approached to assist the Fall Fair with their event in the fall. The Fair would like

bleachers that extend upwards rather than out like the bleachers we currently have. Each year they have been renting them from the City of Welland. The bleachers are 42' long and seat 200-250 people. The City of Welland fees for rental are as follow: \$645/day per bleacher plus \$150 for delivery. They would like 2 for use during their event. The total rental cost is \$2,880 per year. We have investigated options for purchase and suggest a length of 24' which will seat 160 at a total cost of \$15,900 plus tax and a tow package to allow staff to move them to the site of \$1,500 per bleacher. The seating capacity requested would ultimately require the purchase of 3 units for a total cost of \$53,765.00. At this time, staff are not recommending proceeding with the project as the costs are too prohibitive when compared to

the annual cost of rental.

Benefits Larger seating capacity for all events on the grounds.

Costs Initial cost of purchase with potential cost sharing with the Fair, private partners, and potential grant

funding from Trillium.

Risk Township-owned bleachers will eventually require maintenance and repairs and replacement.

Savings Removal of annual rental of bleachers.

Alternatives Considered 1. Purchase smaller bleachers but would not meet the desired effect or viewing capabilities. (Not

Recommended)

2. Continue using existing bleachers. (Recommended)

Value Measurement Increased attendance at Fall Fair.

| Facilities | Septic System Upgrade | 2017 |
|-------------------|--|------------------------|
| Expenditures | Septic System Upgrade \$ Total Expenses \$ | 200,000 200,000 |
| Revenue Sources | Long-term Borrowing \$ Total Revenue \$ | (200,000) (200,000) |
| Project Net Total | \$ | - |

PROJECT NAME: Septic System Upgrade

PROJECT COST: Installation of new septic system \$ 200,000

Total \$ 200,000

BUSINESS CASE:

Description In 2016, an assessment was completed on our septic system which indicated that it had reached its life

span and was in need of upgrading to sustain the existing usage and to allow for future expansion. The present system location is not an ideal location and any upgrades undertaken would prevent any future use in that location. The soil conditions were tested and the new system standards would require a raised bed. Due to our system requirements, an MOE approval would be required for any additions or modifications to our facilities. The MOE has reviewed our present system and has advised that the existing system is functioning but will not sustain the use for any length of time nor would it allow for any

additional expansion.

Benefits The Township is in the process of potentially expanding the arena with additional washrooms and the

new system will accommodate this expansion and allow for future expansion.

Costs Initial cost of installation.

Risk The existing system has reached its life span and requires replacement. The present system is

functioning but will require replacement in the very near future. The expansion plans at the arena or any

additional expansion will not be allowed by the MOE if not replaced.

Savings Prudent planning and replacement could potentially reduce costs due to failure and will allow for future

development within the complex.

Alternatives Considered 1. Perform maintenance on the existing system and delay the replacement. (Not Recommended)

2. Replace the septic bed in the current location and minimize the use of that portion of the property for

future use. (Not Recommended)

Value Measurement Expansion and increased usage of Township facilities.

| Facilities | Town Hall Office Renovations | 2017 |
|-------------------|--|----------|
| Expenditures | Town Hall Office Renovations Total Expenses | |
| Revenue Sources | Capital Tax Levy Total Revenue | (00,000) |
| Project Net Total | 9 | - |

PROJECT NAME: Town Hall Office Renovations

PROJECT COST: Office renovations \$ 90,000

Total \$ 90,000

BUSINESS CASE:

Description The project will consist of office renovations to allow for one additional office, efficient space planning

and renovation of the main reception area. At present, there is limited space available for additional staff including students in the summer months. The Health and Safety Audit performed this year identified some inadequacies in regards to staff safety and work functionality. The new design will incorporate work areas for existing staff, work station to relocate the Fire Prevention Officer from the basement to the

main floor and have additional work areas for our summer students.

Benefits Proper work stations, healthier work environment and added work areas for consultants and summer

students.

Costs The initial cost of construction, furniture, minor rewiring and network cabling.

Risk It has been identified that the present work environment may be a health and safety concern and it is our

obligation to provide a safe work environment free of potential for harassment by staff and the public at

large.

Savings More efficient use of office space may provide efficiencies in employee performance.

Alternatives Considered 1. Function with the existing layout and place students and staff where ever possible. (Not

Recommended)

Value Measurement Improved employee performance. Improved customer service.

| Facilities | Town Hall LED Sign | 2017 |
|-------------------|--|----------------------|
| Expenditures | Town Hall LED Sign \$ Total Expenses \$ | 25,000 25,000 |
| Revenue Sources | Capital Tax Levy \$ Total Revenue \$ | (25,000) (25,000) |
| Project Net Total | \$ | - |

PROJECT NAME: Town Hall LED Sign

PROJECT COST: Purchase and installation of Town Hall LED Sign

\$ 25,000 Total \$ 25,000

BUSINESS CASE:

Description This project will provide the Township with a decorative LED sign with the capability to advertise and

promote the community. The sign will be fully capable of programming messages, graphics and importing custom content with the software provided. The sign will also be capable of dimming at night, a

timer for time of use and will use very little electricity due to its LED design.

Benefits The Township presently uses media such as newsprint, Facebook, Twitter and our website. This would

enhance our capabilities of advertising events, opportunities and also potential sale of advertising space.

Costs The initial cost of installation along with ongoing hydro, programming and maintenance.

Risk Inability to promote local events and activities.

Savings Potential source of revenue from sale of advertising to offset operating costs.

Alternatives Considered 1. Do not purchase and install sign. (Not Recommended)

2. Consider alternate locations for placement of sign. (Not Recommended)

Value Measurement Increase in attendance at Township events. Increased awareness of events occurring within Township.

| Recreation | Scoreboard | 2017 |
|-------------------|---------------------------------|----------------------|
| Expenditures | Scoreboard \$ Total Expenses \$ | 10,000 10,000 |
| Revenue Sources | Donations \$ Total Revenue \$ | (10,000) (10,000) |
| Project Net Total | \$ | - |

DEPARTMENT: Recreation

PROJECT NAME: Scoreboard

PROJECT COST: Scoreboard replacement \$ 10,000

Total \$ 10,000

BUSINESS CASE:

Description The present scoreboard is in need of some major repairs. The cost of replacing the burnt out light bulbs

is approximately \$2,500. To upgrade the scoreboard with a new one will cost approximately \$10,000. The existing scoreboard was sponsored by Meridian Credit Union and staff are recommending that a new partnership be formed with them to seek funding for the replacement of the scoreboard or for the

replacement of the components to extend the life of the existing one.

Benefits The new scoreboard will provide for future events and a longer life cycle than repairing the old one.

Costs The initial cost of purchase and maintenance. Staff will be seeking sponsorship to cover the cost of the

replacement or the cost of ongoing maintenance.

Risk It is continually getting harder to recognize the message at present due to burnt out bulbs.

Savings A new scoreboard will result in savings due to new technology and fewer repairs and bulb replacement.

Alternatives Considered 1. Repair the existing burnt out bulbs to extend the life of the existing scoreboard. (Not Recommended)

2. Remove the existing scoreboard and not replace with a new one. (Not Recommended)

Value Measurement Increase field rentals and improved service to sport groups.

| Recreation | Ice Edger and Ball Diamond Line Painter | 2017 |
|-------------------|---|----------------------|
| Expenditures | Ice Edger and Ball Diamond Line Painter \$ Total Expenses \$ | 11,700 11,700 |
| Revenue Sources | Capital Tax Levy \$ Total Revenue \$ | (11,700) (11,700) |
| Project Net Total | \$ | - |

DEPARTMENT: Recreation

PROJECT NAME: Ice Edger and Ball Diamond Line Painter

PROJECT COST: Ice Edger

 Ice Edger
 \$ 6,200

 Ball Diamond Line Painter
 \$ 5,500

 Total
 \$ 11,700

BUSINESS CASE:

Description The Recreation Department is responsible for the operation of the arena and all facilities including the

sports fields. At this time the Ice Edger and Ball Diamond Line Painter have reached their life expectancy and require repairs. The line painting machine has been rebuilt twice already and is need of a complete overhaul again. The new machine will be capable of painting lines in our parking lots and will eliminate

the cost of hiring an outside contractor to complete this task.

Benefits Staff have been using the existing gas powered edger inside the arena and we have had to implement a

protocol to follow for its use because of the carbon monoxide exhaust fumes that are emitted inside the building. The new unit is a self contained rechargeable unit that will eliminate all concerns for the health and safety of our workers. The line painter is on its second engine and constantly needs replacement

parts due to its age.

Costs Initial cost of replacement and ongoing maintenance.

Risk The potential risk is that repairs to the line painter may only extend the life for a year or two. The edger

will also eliminate the health and safety risks associated with carbon monoxide in the building.

Savings Cost of extensive repairs and down time as well as having staff stop periodically to allow the carbon

monoxide fumes to exit the building through the exhaust system.

Alternatives Considered 1. Continue to repair the existing pieces of equipment. (Not Recommended)

Value Measurement Increase in usage of sports facilities.

| Recreation | Ball Diamond Fence and Bleachers | 2017 |
|-------------------|---|----------------------------------|
| Expenditures | Ball Diamond Fence and Bleachers \$ Total Expenses \$ | 57,000 57,000 |
| Revenue Sources | Grant - Canada Summer Games \$ Capital Tax Levy \$ Total Revenue \$ | (28,500) (28,500) (57,000) |
| Project Net Total | \$ | - |

| DEPARTMENT: | Recreation | | | |
|---------------|--|-------|----------|------------------|
| PROJECT NAME: | Ball Diamond Fence and Bleachers | | | |
| PROJECT COST: | Backstop Fence - Both Diamonds Outfield Fence - Diamond #1 | | \$ \$ | 26,000 15,000 |
| | Bleachers | _ | \$ | 16,000 |
| | | Total | \$ | 57,000 |

BUSINESS CASE:

Description The Canada Summer Games committee has approached the Township to use the Sports Field during

the 2021 Summer Games. The committee has advised that potential funding may be available for upgrades that may be required. The Township staff have reviewed the facilities and have recommended that some upgrades are required in the ball park area that the Summer Games would be utilizing. The backstops require upgrading and Diamond #1 presently does not have outfield fencing. The backstop in

Diamond #2 also needs upgrading.

Benefits The Township is continuing to upgrade services and facilities as required and this has become a great

opportunity to cost share with the Canada Summer Games.

Costs 1. The backstop fence for both diamonds - \$26,000

2. Outfield fence for Diamond #1 - \$15,000

3. Bleacher (16" 5-row) - 4,000 /each x 4 = 16,000

Risk At present, the missing fence at Diamond #1 poses some safety concerns to the players and public.

Savings Potential increase in materials and installation costs in the future.

Alternatives Considered 1. Do not proceed with the project. (Not Recommended)

2. Install only the outfield fencing at Diamond #1 and wait for the cost sharing model to be completed and funding submitted by the Summer Games Committee prior to any purchase or installation of the

backstops or bleachers. (Not Recommended)

Value Measurement Increase in usage of ball diamonds.
